

PRODUCT DATA SHEET

Wall Mounted Baby Changer, horizontal

Product code: BABH99

Material: Polyethylene

Dimensions: H516 x W870 x D500 (opened) D110 (closed)

Warranty: 5 years

Available in white, high density polyethylene, Impeco changers are robust and hard-wearing. The changers were tested for a static load of 110 kg and are ADA compliant when installed correctly. CE marked, RoHS marked

The surface is anti-bacterial and resistant to bacterial growth, providing an added level of hygiene protection. The deep, concave cradle limits infant movement and lowers the risk of falls.

The changers are also equipped with an adjustable security strap which holds the infant in place to facilitate changing.

The changers are designed with convenient bag hooks at either end and an integral dispenser which can store up to 50 bed liners.

Baby Changers offer a secure and hygienic platform for away from home parents and infants.
