

**Documentation sheet**  
**Regarding food safety for "Super Sækken" items:**

**1651, 1652, 1653, 1654, 1677, 1678, 1679, 1680, 1681, 1682, 1683,**  
**1684, 1622, 1623, 1624, 1401, 1402, 1453, 1454, 9550, 9551, 13333,**  
**13338**

Date: 19/6-2017

**General description:**

LLDPE Borstar bags. All bags stated in this sheet have a thickness of 25 or 35 micron and are all approved for food contact.

**CAS number information:**

We guarantee that the related CAS-numbers for raw materials used for the mentioned articles appear partly from "*List of authorised monomers and other starting substances*", partly from the "*Incomplete list of additives fully harmonized at community level*" and are thus accepted/ approved for food contact.

We guarantee that the raw material does not contain any substance classified as hazardous, in concentrations, which should be taken into account according to EC directives

**Total Migration test:**

The product has been tested according to 2002/72/EC – test period: 10 days 40 degree Celsius. Detailed report from Intertek Labtest no. HJ00551500.

This test was made for a bag with the thickness of 60 micron. We hereby guarantee that it is the same raw material and same production method that will be used for this product.

**Conclusion:**

We hereby guarantee that the mentioned products are within the legalisation of the "Danish Ministry of Family and Consumer issues" law no. 11 of 9<sup>th</sup> of November 2006 and within EU regulation 1935/2004, if the material is used for all types of food and is not exposed for temperatures above 70 degree Celsius.
