

Product Main Number 1010001387

Disposable glove, THOR Ultra Tough, M, green, nitrile, powder-free

- ✓ Elastic glove that easily adapts to the hand
- ✓ No latex proteins that can lead to allergy
- ✓ High level of touch sensitivity
- ✓ Chemical resistant

Product Description

THOR Ultra Tough provides great protection combined with good comfort. The nitrile glove is particularly suitable for chemical splashes due to the glove's thickness, yet without compromising touch sensitivity. The glove is particularly suitable for the food industry and automotive industry, as well as for cleaning.

Specifications

Base name	Disposable glove
Brand	THOR
Sub-Brand	Ultra Tough
Size	M
Color	Green
Properties	Rolled cuff
Features	Powder-free
Single or multiple use	Single use
Material	Nitrile
Length/depth	240 mm

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

Third-party type approval is required for all Category III personal protective equipment (PPE) products. CAT III products will be accompanied by a notified body number for the 3rd party verification of the product’s safety.

The glass-fork-symbol guarantees that products live up to the demands stated in the European legislation for food contact materials. The symbol is not mandatory but advised on products used for food contact.

The product does not contain latex.

The glove has a finger textured surface.

The glove has a medium grip.

The glove is 240 mm long.

The standard specifies the requirements for protective gloves against chemicals and microorganisms. Type B has been tested for a permeation time of at least 30 minutes with the chemicals sodium hydroxide 40%, hydrogen peroxide 30% and formaldehyde 37%.

The standard specifies the requirements for protective gloves in relation to general requirements and test methods.

The standard specifies the requirements for protective gloves against hazardous chemicals and microorganisms. This part of the standard describes the glove’s resistance to bacteria, fungi and viruses.
