sækko•boy

Waste bin for Sækko-Boy waste stand, Sækko-Boy, black, recycled plastic/PP, 5 l

- ✓ add more fractions to your Sækko-Boy stand
- ✓ easy to sort at source
- ✓ easy to fit

Product Description

If sorting waste is a priority for you, but it still must be easy and clear, you will find the new waste bin for the Sækko-Boy stand an excellent, efficient solution. With a capacity of 10.2 liters and extra waste fractions, it makes waste management that much easier. The bin can be attached to the 2 sides of the stand, and it is easy to lift off the stand, empty, and wash it. You can buy additional lids in the colors black, blue and green, which further helps you make sorting at source fast and clear on the go. The lids are easy to fit and can be opened in two ways. You need to buy the brackets for the bins separately. You can also place the waste bins in the stand's two sack holders. This allows you to have one or two bins placed inside the stand itself. However, this does not apply to the 120 l Sækko-Boy stand. This upgrade of the Sækko-Boy stand allows you to adapt it to your specific wishes and needs in terms of sorting waste. In other words, you don't need to replace the entire stand, but can simply add products. Among the various options available, you can, for example, choose to use our new waste sacks that are adapted so that two sacks can be hung in the stand's sack holders. Otherwise, you can choose to have a waste sack and a waste bin hanging inside the stand combined with two waste bins hanging on the opposite sides of the stand.

Specifications

Base name	Waste bin for Sækko-Boy waste stand
Brand	Sækko-Boy
Color	Black
Material	PP, recycled plastic
Length/depth	16 cm
Width	32.8 cm
